H15. RECENTLY IMPLEMENTED MAJOR FINANCIAL AID POLICY, PROGRAM, OR INITIATIVE TO MAKE INSTITUTION MORE AFFORDABLE TO INCOME STUDENTS SUCH AS REPLACING LOANS WITH GRANTS, OR WAIVING COSTS FOR FAMILIES BELOW A CERTAIN INCOME LEVEL:

AccessUVa is the financial aid program for the University of Virginia. It guarantees to meet 100 percent of the demonstrated need of students admitted to the University. This important program allows UVA to operate with a "need-blind" admission policy that bolsters efforts to attract the best students here and achieve socioeconomic diversity in the student population.

Common Data Set I: Instructional Faculty and Class Size

I-1. Instructional Faculty

The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. The chart below lists inclusions and exclusions:

Type of Instructional Faculty	Full-time	Part-time
(a) Instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or predoctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
(b) Administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include only if they teach one or more non-clinical credit courses
(c) Other administrators/staff who teach one or more non-clinical credit courses	Exclude	Include

even though they do not have faculty status		
(d) Undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) Faculty on sabbatical or leave with pay	Include	Exclude
(f) Faculty on leave without pay	Exclude	Exclude
(g) Replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: Faculty employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: Includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaskan native; Asian or Pacific Islander; or Hispanic.

Doctorate: Includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. Also includes terminal degrees formerly designated as "first professional," including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), or law (JD).

Terminal degree: The highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

Faculty	Full-time	Part-time	Total
a) Total number of instructional faculty	1,493	80	1,573
b) Total number who are members of minority groups	261	8	269
c) Total number who are women	576	48	624
d) Total number who are men	917	32	949
e) Total number who are non-resident aliens (international)	105	4	109
f) Total number with doctorate or other terminal degree	1,357	49	1,406

g) Total number whose highest degree is a master's but not a terminal master's	127	28	155
h) Total number whose highest degree is a bachelor's	7	3	10
i) Total number whose highest degree is unknown or other	2	0	2
j) Total number in stand-alone graduate professional programs in which faculty teach virtually only graduate-level students	150	6	156

I-2. Student to Faculty Ratio

Ratio of full-time equivalent students (full-time plus 1/3 part-time) to full-time equivalent instructional faculty (full-time plus 1/3 part-time). Excluded are both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Undergraduate and graduate student teaching assistants are not counted as faculty.

Fall 2018 Student to Faculty Ratio: 15 to 1 (based on 19,641.67 students and 1,346 faculty)

I-3. Undergraduate Class Size

Definitions:

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

For each of the following class-size intervals, the number of class sections and class subsections offered in Fall 2018. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the “100+” column in the class section column and 40 times under the “20-29” column of the class subsections table.

Class Types	2-9	10-19	20-29	30-39	40-49	50-99	100+	Total
Class Sections	384	870	299	239	143	192	149	2,276
Class Sub-Sections	169	438	584	27	34	42	5	1,299

Common Data Set J: Degrees Conferred

For each of the following discipline areas, numbers represent the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. Majors, not headcount (e.g., students with one degree but a double major will be represented twice) are used. Percentages are calculated from institution's IPEDS Completions by using the sum of 1st, 2nd, and 3rd majors for each CIP code as the numerator and the sum of the Grand Total by 1st, 2nd, and 3rd majors as the denominator.
